

HELPS TO PROVIDE RELIEF & IMPROVE SYMPTOMS OF DRY EYE SYNDROME

600MG EPA - 300MG DHA - 12MG DPA

New & improved formula offers an excellent source of the most important components of Omega-3 fish oils, EPA, DHA & DPA, in a highly purified and concentrated vitamin supplement which helps to support proper tear function in adults.

- ✓ Provides Omega-3 in the re-esterified triglyceride (rTG) form
- ✓ GMO-free
- ✓ Highly purified & concentrated
- ✓ Molecularly distilled in a licensed facility
- ✓ Scientifically formulated
- ✓ Easy to digest
- ✓ Easy to swallow
- ✓ Flavor-free
- ✓ More economical than other re-esterified Omega-3 products on the market
- ✓ Health Canada Licensed

Now available in two formats

Two soft gels daily provide 1824 mg of Omega-3

**OUR SUPERIOR FORMULATION
RESULTS IN INCREASED POTENCY
AND EFFICACY**

Unlike many other omega-3 supplements, I-VU® OMEGA-3 PLUS provides the beneficial omega-3 fatty acids in the **re-esterified triglyceride (rTG) form**, as opposed to the synthetic, ethyl ester form, allowing for greater absorption of these fish oils into the bloodstream.

*Patients who are not completely satisfied after consuming the recommended daily dose of I-VU® OMEGA-3 PLUS for 90 days will get their money back. Proof of purchase for a 90-day supply of product is required and the refund must be requested within 120 days of purchase.

I-VU® OMEGA-3 PLUS can be used as part of a combined treatment plan including I-DROP® viscoadaptive tears, I-LID 'N LASH® ocular hygiene products and the I-RELIEF™ Hot & Cold Therapy Mask with *ThermaBeads™*

NOT ALL OMEGA-3 SUPPLEMENTS ARE CREATED EQUALLY!

OMEGA-3 PRODUCTS COMMERCIALY AVAILABLE ON STORE SHELVES AND ON-LINE DIFFER IN THEIR FORMULATIONS AND QUALITY:

Unpurified native oil:

Pressed directly from various fish, it may contain harmful toxins, including mercury and PCBs.

Ethyl ester based omega-3s:

Toxins are removed, converting it to a form not easily absorbed by the body. Large doses are required before benefits can be observed.

Re-esterified triglyceride (rTG) form omega-3s:

Alcohol is removed, resulting in a formulation easily absorbed by the body.

THE I-MED PHARMA ADVANTAGE

Better Sourcing:

I-VU[®] OMEGA-3 PLUS is sourced from the oils of sustainable fish: anchovies, mackerel and sardines. Rich in omega-3 fatty acids, yet smaller in size, they have a lower risk of containing toxins. ^{1,2,3}

Comprehensive process:

Following extraction of rich native oil and esterification to remove any potential toxins, I-VU[®] OMEGA-3 PLUS undergoes an additional step, removing the alcohol. The result is a concentrated, purified, re-esterified triglyceride (rTG) formulation, proven to be easily absorbed by the body, without fishy odor or after-taste.

I-VU[®] OMEGA-3 PLUS offers a safe, potent and easily absorbed formulation, providing maximum benefits to your patients
